

LIFE SCIENCES

Biochemicals and Biomolecules

Selection Guide

Essential inputs. Extraordinary outcomes.™

A detailed 3D rendering of a molecular structure, likely a protein or a complex biomolecule, is the central focus. The structure is composed of numerous spheres (atoms) connected by rods (bonds). The spheres are rendered with a metallic, reflective blue finish, giving them a three-dimensional appearance. The background is a gradient of light blue, with several other smaller, semi-transparent molecular structures scattered throughout, creating a sense of depth and scientific complexity. The overall aesthetic is clean, modern, and professional, typical of a scientific or pharmaceutical publication.

Dedicated To What Matters

At Advancion, we are committed to delivering high-quality chemistries from the world's leading producers through a qualified, traceable and integrated supply chain. We promote consistency and sustainability in our processes by following a single Quality Management System applicable to all our biochemical, buffer and salt products. Our dedication to providing superior products and supply chain solutions for your R&D, scale-up and production needs is more than just an ongoing commitment – **it's what we do.**

From Discovery to Launch

Advancion provides dedicated support for multiple Life Sciences applications, including molecular, biotechnology and pharmaceutical. We offer specialized testing, custom blending and multiple packaging options to meet a wide variety of customer needs. Discover how we can work with you to identify the optimal solutions for your organization.

PACKAGING

- cGMP IPEC-PQG
- Wide range of available packaging configurations

ANALYTICAL

- ICP/MS
- GC and HPLC
- ISO 9001: 2015 certified

WAREHOUSING

- On-site storage options
- Ambient and controlled temperature capabilities

PURCHASING

- Global sourcing capabilities
- Formalized supplier lifecycle management program
- Non-animal origin

Product Stewardship

Through our investments in application and new product development, we have a deep understanding of where our chemistries are (and can potentially be) used to actively address global trends in Life Sciences, Beauty and Personal Care, and other essential industries to help make our lives healthier, and more sustainable and comfortable. To help ensure that Advancion products are not used in ways for which they are not intended, Advancion personnel will assist customers in dealing with environmental and product safety considerations. Before handling any of the products, obtain available product safety information including the Safety Data Sheet(s) and take the necessary steps to ensure safety of use. For assistance, product Safety Data Sheets, or other information, please visit advancionsciences.com or contact us at info@advancionsciences.com.
